

WELCOME TO SOUTH AFRICA!

We're delighted to welcome you to our shores, and can't wait to share our beautiful home with you! But, before we let you dive into the sights, sounds and flavours of South Africa ... let's talk about water.

SOUTH AFRICA HAS RECENTLY JOINED THE WATER-WISE TOURISM MOVEMENT.

The global water shortage is by no means unique to us, it's a growing challenge affecting more and more countries around the world every year.

Our response so far has been remarkable and we are already setting a shining example for the rest of the world, and creating a legacy of water-wise tourism right here in our backyard.

Thanks to the amazing work of our people, we can still welcome visitors like you to all parts of our amazing country.

THIS IS HOW TO PRACTISE #WATERWISETOURISM

Being water wise is everyone's responsibility, now more than ever before. You can play your part, simply by making some small positive changes in your everyday behaviour. It's as easy as following these simple water-wise tips!

FAO'S

- Q: Is water available in the Western, Eastern and Northern Cape for travellers?
- A: Yes feel free to use and drink water, but all citizens and travellers alike are requested to use no more than 50 litres a day.
- Q: 50 litres per day isn't much. What can I do with that?
- **A:** With 50 litres of water you can use 18 litres to wash laundry, take a 90-second shower with 15 litres, use nine litres to flush a toilet, use three litres for daily hygiene, use two litres for cooking if in a self-catering establishment, and drink two litres of water.

- Q: Will I have to queue for water?
- A: No water is available through the regular sanitary and hygiene systems for taps, showers and toilets.
- Q: Are tourist attractions still operational?
- **A:** All major tourist attractions are still operational and have water, as do restaurants, bars and other entertainment spots.
